

VvS1 World Superyacht Award Winner

Off the chart – The Ultimate Charter Boat

A visit to New Zealand wouldn't be complete without some time spent out and about on this island nation's beautiful waters. Named after a grade of almost flawless diamond, VvS1 is a New Zealand superyacht that stands out amongst the crowd.

A frequent visitor to Auckland Harbour's Viaduct, VvS1 - just like its namesake - it is perfectly finished with a shark gray hull, complementary metallic silver superstructure and perfectionist-pleasing clean interior lines.

In 2008 VvS1 won the *World Superyacht Award* in Venice, Italy before being awarded no less than three trophies from the World Yacht Awards in Cannes, France. Winning the categories of 'Best Motor Yacht', 'Best Interior' and 'Best Functionality', Michael Hill's 34m superyacht VvS1 is quite possibly the best superyacht to ever come out of New Zealand.

Owners Michael and Christine Hill are already known for their style and design flair via their international jewellery brand 'Michael Hill' and award winning 18 hole golf course 'The Hills' in Arrowtown. "Having had the opportunity to include so much of our own personal input in the interior design of the boat, Christine and I are incredibly honoured by the continual international recognition awarded to VvS1," says VvS1 Owner Michael Hill.

"We're extremely proud of our boat and its representation of Kiwi thought, design and know-how across the world's oceans."

Michael and Christine Hill's vision for ultimate relaxation onboard took lean edges and soft colours to offset the exterior lines of the boat. Its immaculate standards of construction are testament to high seas all over the world.

"VvS1 is all about making the desirable accessible. It is my favourite hideaway and specifically built to experience the Pacific in a unique way," says Hill. "Building VvS1 was like a dream come true. The design is outside the square as it breaks traditional thinking in layout and shape, yet it is practical and functional and seems to give the impressions of masculine ruggedness."

With a maximum speed of 13 knots and a range of 4300 nautical miles this internationally renowned yacht is able to take its owners or chartered guests almost anywhere they desire.

For the enjoyment of guests onboard...

- 6.5 metre / 21.5 ft Protector RIB with 150hp 4-stroke Yamaha
